

Rohan Hore

Email: rohanhere@uchicago.edu | Website: roanhore.github.io

Education

PhD in Statistics , University of Chicago Advisor: Rina Foygel Barber, Expected graduation: 06/2025	9/2020 – present
Masters in Statistics , Indian Statistical Institute, Kolkata Advisor: Abhik Ghosh, Specialization: Probability	7/2018 – 6/2020
Bachelors in Statistics , Indian Statistical Institute, Kolkata	7/2015 – 6/2018

Internships and Long Visits

Student Visitor , Statistical Laboratory, University of Cambridge Host: Richard J. Samworth	9/2023 - 12/2023
Intern at TCS ION, Kolkata Project: Performance Analytics for Large Scale Online Assessments	12/2016 - 1/2017

Publications and Papers

- Rohan Hore, Jake Soloff, Rina Foygel Barber and Richard J. Samworth “Conditional independence testing under shape constraints”. Arxiv: [arxiv:2501.06133\[stat.ME\]](https://arxiv.org/abs/2501.06133).
- Rohan Hore and Rina Foygel Barber. “Conformal prediction with local weights: randomization enables local guarantees”. *Journal of the Royal Statistical Society Series B*, 2024. Arxiv: [arxiv:2310.07850\[stat.ME\]](https://arxiv.org/abs/2310.07850).
- Yu Gui, Rohan Hore, Zhimei Ren, and Rina Foygel Barber. “Conformalized survival analysis with adaptive cutoffs”. *Biometrika*, 2023. Arxiv: [arxiv:2211.01227\[stat.ME\]](https://arxiv.org/abs/2211.01227).
- Rohan Hore and Abhik Ghosh. “Robust and Efficient Parameter Estimation for Discretely Observed Stochastic Processes”. *Annals of the Institute of Statistical Mathematics*, 2024. Arxiv: [arxiv:2204.05028\[stat.ME\]](https://arxiv.org/abs/2204.05028).

Posters and Presentations

- “Monotonicity meets conditional independence testing: new insights”. *PhD Student Research Day*, Data science institute, University of Chicago, 2024.
- Discussant for “Two-sided conformalized survival analysis”. *International Seminar on Selective Inference*, 2024.
- “Localized conformal prediction with random weights: randomization enables robustness”. *CAM and STATS student Seminar*, University of Chicago, 2024.
- “Distribution free conditional predictive inference: randomization enables robust guarantees”. *Student Research Poster Day*, University of Chicago, 2024.
- “Conformal prediction with local weights: randomization enables robust guarantees”. Talk at Michigan Bio-statistics mHealth Working Group, 2023.
- “Conformalized Survival Analysis with Adaptive Cutoffs”. ICML *Distribution free Uncertainty Quantification* workshop, 2022.

Honors And Awards

- Senior Consultant Recognition award, *Statistical Consulting Program*, Department of Statistics, University of Chicago, 2022 and 2023
- Dean’s list of toppers, ISI Kolkata, 2015-2020
- Second rank holder, Medha Sandhan Exam, Academic Science Culture and Promotion Society, 2011

Teaching experience

As an Instructor at University of Chicago

- Stat 23400 - Statistical Models and Methods. Spring 2023.
- Applied Statistics Qualifying Exam Workshop. Summer 2023, Summer 2024.

As a Teaching Assistant at University of Chicago

- Stat 34700 - Generalized Linear Models. Winter 2024, Winter 2025.
- Stat 27850 - Multiple Testing, Modern Inference, and Replicability. Winter 2023.
- Stat 31200 - Introduction to Stochastic Processes I. Autumn 2022.
- Stat 25150 - Introduction to Mathematical Probability-A. Spring 2022.
- Stat 25100 - Introduction to Mathematical Probability. Spring 2021, Autumn 2021.
- Stat 31700 - Introduction to Probability Models. Winter 2021.
